REACTIVATING INNOVATIONS

National Conference on Recent Trends in Chemical Engineering and Technology
Introduction
Laxminarayan Institute of Technology (established in 1942) is a conducted institute of Rashtrasant Tukadoji Maharaj Nagpur University. It is a premier institute of Technical Education in the field of Chemical Engineering and Technology in the country. The sprawling 78 acre campus acts as a sanctum of learning. The institute attracts students with excellent academic credentials from all over the country and mould them into efficient and practical engineers and technocrats which have made the institute proud. The college has a highly qualified faculty, which is committed to imparting the best of knowledge. They are actively engaged in training the students, so that they meet modern academic and industrial standards. The institute is developing consistently and is improving its quality of education through its curricular, co-curricular and extra curricular activities, so as to satisfy the ever-demanding needs of the industrial sector.

Laxminarayan Institute Of Technology offers (Eight Semester) Undergraduate B.Tech Courses in :
- Mechanical Engineering
- Electrical Engineering
- Instrumentation and Control Engineering
- Computer Science Engineering

2. Chemical Technology with specializations in:
- Petrochemical Technology
- Food Technology
- Pulp and Paper Technology
- Oil, Fats and Surfactants Technology
- Paint Technology
- Surface Coating Technology
- Chemical Engineering
- Petroleum Refining and Petrochemical Technology
- Food Technology
- Paint Technology
- Oil Technology

The Institute also offers Ph.D programmes
The Institute consistently has an excellent placement record.

About the Conference
In this conference we strive to provide the platform to interact on the recent trends in Chemical Engineering and Technology. In this conference Faculties, Industrialists, Researchers, and Students from all over the nation will present their research contributions in the areas of Chemical Engineering and various branches of Chemical Technology. In this conference, students will get an opportunity to interact with the faculty delegates to know the latest trends in the said research fields. The eminent speakers in the respective fields will address the gathering.

Previous year we received an overwhelming response from participants for REACT - 2014. This has prompted us to organize REACT - 2015 on a grand scale.

Call for Papers
Faculty / Research Scholars / Industrialist Section:
The original research papers of faculty/researchers/Industrialists are invited on following topics:
- Modeling and Simulation of Chemical Processes
- Process Integration and Intensification
- Separation Processes
- Advances in Unit Operations and Processes
- Chemical Reaction Engineering
- Fuels and Energy
- Software Development

Membrane Technology
Advanced Materials
CFD and Transport Processes
Petroleum Refining and Petrochemical Technology
Food Technology
Polymer Science and Technology
Organic Coating, Paints, Pigments, and Resin Technology
Oil, Fats and Surfactants Technology
Paper and Pulp Technology
Pharmaceutical Sciences
General Engineering

Any topic related to Chemical Engineering and Technology
